اعطای بورس تحصیلی به فارغ التحصیلان کارشناسی آب‌وهواشناسی (برای دوره کارشناسی ارشد در قبرس)

The Cyprus Institute Graduate School is launching its Master's Program in Environmental Sciences in Fall 2018. The Institute will offer up to three Dean's Distinguished Scholarships, the most prestigious scholarships offered by the Institute, to fund top applicants. The program begins in September 2018.

Students must select one of two program options:

§MSc in Environmental Sciences (14 months- 90 ECTS)

§MSc/MPhil in Environmental Sciences (18 months- 120 ECTS)

Both program options offer two specialization track options:

§Atmospheric Sciences

§Meteorology

The Meteorology track syllabus covers all topics for professionals employed by national meteorological authorities as required by the World Meteorological Organization (WMO).

Students with, or in their last year of a Bachelor's degree are eligible to apply.

Dean's Distinguished Scholarships offer generous financial support for the duration of the program to awardees maintaining excellent academic performance. The scholarships fully cover tuition and other fees as well as travel and relocation expenses (for students relocating from abroad).

Application deadline: March 1, 2018 (late application deadline is June 1, 2018).

For details about the program and admission requirements, refer to the website:
